

BEVERAGE INNOVATION DIRECTORS' TIPS

Acidity content:

To avoid the possibility of curdling, do not use tart, acidic, MONIN flavours with a dairy based drink.

To ensure a longer consistency:

Use high viscosity juice for your favourite smoothie such as banana, apricot, peach, mango... You can also add frozen fruits.

Volume booster:

Crushed ice will boost your drink volume if you prepare it in a spindle mixer.

Allergen advice:

You can replace milk or yogurt by soy milk or soy yogurt.

To enhance the visual aspect:

You can create amazing layers in your favourite smoothie!
